

1. Parking near stage for Sprinter size van with small tow-behind trailer. If parking is not available near the stage, some means of transportation to the stage area for band members and gear. Golf carts and utility golf carts are fine.
2. Dressing room, tent etc. A place for band members to dress and prepare for performances. Tables and chairs would be great. If this includes its own bathroom that would be fantastic.
3. Merch area. Dedicated area for the band to set up, display and sell merchandise. A folding table would be terrific.
4. Lots of water as well as soda and diet soda on ice available upon load in with plenty to be available during the band's duration at the event. Coffee and tea would be a huge plus here.
